Early life. Daniels was born October 28, 1936, in Wilmington, North Carolina, and raised on a musical diet that included Pentecostal gospel, local bluegrass bands, and the rhythm & blues and country music from Nashville's 50,000-watt AM radio stations WLAC and WSM. In 2016, he shared memories of his youth and baseball in Wilmington when he wrote the foreword for a book on the Tobacco State League.

Tags are used to classify and organize games in Flashpoint for easier searching. Here, they have been organised into categories. You may use multiple tags per game, and you can use any of the category headers from Action to Other and Game Jam as tags too. Tags can be applied to either games or animations, but the most common Animation tags are listed in their own section for your convenience.

Lolium grasses have many weedy characteristics. They are capable of adapting rapidly to their environment, produce large amounts of seed, and are easily dispersed, usually by humans. The perennial ryegrass, *L. perenne*, is native to central Asia, the Middle East, North Africa and southern Europe, from Bulgaria in the east to France in the west. It was introduced by early European pastoralists to ...

Photosynthesis is an amazing chemical process carried out by plants that provides the basic building block that is necessary for all living things on earth to survive. This is because the primary 'waste product', of photosynthesis is oxygen. Through photosynthesis, plants use light energy, and through a series of chemical reactions, change it into chemical [...]

Expected annual oil depletion rate has increased from 5% 11 years ago to 9% today. Our "leaders" are going to try to pitch the fossil energy decline as a planned action in response to climate change, and any problems will be blamed on not investing enough in "clean" energy. We're going to achieve Net Zero 2050, but not by choice.
