This means half of the CAT C7 engines had a major engine failure at 500,000 miles and needed an overhaul. According to the B Rating System an "overhaul" or "major engine repair" is regarded as removal of the cylinder heads and/or dropping the oil pan with an inframe repair.

CAT C7 Specs and Engine History - Capital Reman Exchange

:bangit could be the kind of oil you used?:fancaterpillar is recalling certain c7 engines manufactured from march 3, 2005 through january 6, 2009, installed as original equipment in various heavy trucks and buses. the #5 and #6 fuel lines may crack at the fastening point to the common fuel rail and cause a fuel leak.consequence:

cat C7 problem 2 different engines | The Diesel Garage

I'd really recommend looking for a bus with a 8.3 Cummins or dt466 engine those are ones everyone is after. The c7 motor it self isn't that bad but the fuel system is what gives people lots of problems with them. And that can lead to 1000's of dollars to have a shop do the work.

CAT C-7 Skoolie engine advice : skoolie

The Caterpillar C7 Engine was produced from 2003 - 2009 and was originally touted to be the greatest CAT Engine ever made. However, things don't always go according to plan. Read about the history and technical specs of this legacy engine.

Caterpillar C7 Recall - Read About C7 Recalls & Complaints ...

Even though you have replaced the fuel pressure regulator, you could have a problem with the fuel transfer pump. I would install a PSI gauge and check the fuel pressure while cranking. The C7 needs at least 25 psi to start. If it is low, you most likely have a weak transfer pump.

C7 ACERT CAT with starting problems - Please help.

I'm a small towing company and my 2004 Ford F650 with a C7 Cat engine is a money pit. We were having problems with it running rough and white smoke. Took it to shop and replaced injectors cost ...

Top 230 Caterpillar Reviews - ConsumerAffairs

C7's are good engines. However, the fuel pumps can fail and will put metal into the injectors. Cat would suggest full injector replacement and fuel pump, as well as cleaning out the fuel rail inside the head. This most often happened after they were ran out of fuel.

Caterpillar C7: epic piece of shit, or just misunderstood ...

Valve breakage is a very common problem on the C7 and its forerunner the 3126B. However the mileage is usually in excess of 200,000. I have know several that have had the same problem. Almost always the very last valve on the number 6 cylinder.

2006 Cat C7 - Engines - FMCA RV Forums - A Community of RVers

Many C7 engines are now facing the need of a rebuild. Most of these engines see a service life of around 500,000 miles. In researching this article, Bill Wessel and others at Jasper Engines and Transmissions in Jasper, IN, explained that they have taken on production of the Cat C7 to meet the changing needs of the diesel engine aftermarket.
