## **Combining Like Terms And Distributive Properties ...**

To be a common term, the term must have the same variable and the same exponents. When you combine like terms, be sure to use the + or - that is in front of the coefficient, or number in before the letter. So in this case, we will add the 3, 5 and 9 that is in front of the x terms. Then we will subtract 7 and 4 that is in front of the y terms.
