Gender Identity And Discourse Analysis

Gender is the range of characteristics pertaining to, and differentiating between femininity and masculinity.Depending on the context, this may include sex-based social structures (i.e. gender roles) and gender identity. Most cultures use a gender binary, having two genders (boys/men and girls/women); those who exist outside these groups may fall under the umbrella term non-binary.

How can we reconceptualize race, class and gender as categories of analysis ? To me, we must shift our discourse away from additive analyses of oppression (Spelman 1982; Collins 1989). Such approaches are typically based on two key premises. First, they depend on either/or, dichotomous thinking. Persons, things and
