The Jenbacher J920 FleXtra is Jenbacher's newest product, a V20 gas engine delivering up to 9.5 MW (12,915 PS). When it is put into production it will be Jenbacher's most efficient gas engine available with an electrical efficiency of 48.7%, and a combined heat and power thermal efficiency of over 90%.

Jenbacher - Wikipedia

recommendations for Cat gas engines. This information supersedes all previous recommendations which have been published for Cat gas engines. Special fluids may be required for some engines and it will be necessary to continue to use these special products. Refer to the applicable Operation and Maintenance Manual.

Cat Gas Engine Lubricant, Fuel, and Coolant Recommendations

In an internal combustion engine, scavenging is the process of replacing the exhaust gas in a cylinder with the fresh air/fuel mixture (or fresh air, in the case of direct-injection engines) for the next cycle. If scavenging is incomplete, the remaining exhaust gases can cause improper combustion for the next cycle, leading to reduced power output.
