"(There's) no such thing as a stupid question" is a popular phrase with a long history. It suggests that the quest for knowledge includes failure, and that just because one person may know less than others they should not be afraid to ask rather than pretend they already know. In many cases multiple people may not know, but are too afraid to ask the "stupid question"; the one who asks the ...

So for the cladists, either there is no such thing as fish - or we're fish too. Of course, the cladists' approach to species is useful for asking certain questions. When evolution has literally built everything you are thinking about, classifying all those things based on how evolution works makes a lot of sense.
